

OnCore Status Workflow (Non-Cancer Center)

Responsible Party:
Office of Clinical Research

Notifications:
None

Status automatically assigned when a protocol is initially entered into OnCore.

Responsible Party:
Study Team

Notifications:
OCR Signoff reminder to Office of Clinical Research

Status automatically populates when the Initial IRB Approval is entered by study team.

Responsible Party:
Office of Clinical Research

Notifications:
Research Unit Signoff reminder to Study Site Contact and Central Admin

Signoff completed once coverage analysis has been finalized by the Office of Clinical Research and the final contract and informed consent have been reviewed for consistency where applicable.

Responsible Party:
Study Team

Notifications:
Open to Accrual reminder to Office of Clinical Research

Signoff completed once all required reviews are complete, sponsor authorization obtained and the study team is fully prepared to begin seeing patients. OnCore calendar and budget should also be reviewed where applicable.

Responsible Party:
Office of Clinical Research

Notifications:
Open to Accrual notice to Study Site Contact and Central Admin

Completed ASAP after Research Unit Signoff occurs. Allows for centralized RPE push from OnCore to PowerTrials by the Office of Clinical Research. Calendar release and final OnCore QA is also completed at this time.
